Art therapy may offer treatment for mental disease

From ANI

Washington, July 9: Art therapy, a therapy through visual art, can offer a treatment option for people with mental disease, suggests a new study.

Nieves Hospital of Granada

The participants took part in two days a week session and they adapted paintings of artists such as Modigliani, Munch or Van Gogh, offering their own vision.

The researcher of the University of Granada highlights the liberating nature of art for these patients, who project their inner world and their repressed desires through their paintings.

This way, they deal with their fears and desires, which get real during the artistic process where it is possible to give them life or to destroy them.
