ikewise, drawing or making a pictorial representation relating to the also contributed to its solution.

To reach the conclusion, the authors analyzed in depth the work of three last-year students of the degree in [Mathematics](#) of the UGR, who were isolated separately to solve a problem and were recorded in video to [study](#) their speeches aloud later.

Although the researchers warn that the amount of information about the individual's conduct available to be analyzed when he speaks while solving a problem is higher than when he does not do so; their work has proved that this is an effective system and it "provides a valuable database to identify many of the contents, processes and strategies used solution of problems". (ANI)
